

ARMITAGE ANIMAL CLINIC

Mature Gold Plan for Dogs and Cats

Pets are extremely effective at masking disease and pain, which makes regular preventative care essential for the continued health and longevity of your furry friends.

A Mature Preventative Health Plan offers older pets a proactive approach to maintaining their health. A full range of tests and treatments will help ensure their quality of life remains as high as possible into their senior years.

**It's not insurance, it's
Preventative Health!**

Pet insurance is reactive, while our Preventative Health Plans are proactive. In other words, insurance is great for the things we don't want to happen, while a Preventative Health Plan is to help with the things we want to happen!

Every PHP is a 12 month plan to provide comprehensive wellness care to your beloved pet!
